# BEYOND STABILITY

*Image(s) shown may vary for different variants.*

## Active Traction Control (A-TRC) [G variants only]

When sensors detect a wheel losing traction in L4 mode, the system will individually brake that wheel and transfer power to the opposite wheel on the same axle. This helps the Hilux maintain forward momentum and drive through tough situations easily.

## Downhill Assist Control (DAC) [2.8G variant only]

Controls the brakes independently and prevents the Hilux from slipping when descending steep slopes.

## Rear Differential Lock [4x4 variants only]

Improves traction on undesirable road conditions by providing equal amounts of torque to both rear wheels.

## 4WD Transfer Dial [4x4 variants only]

Easily switch from 2WD to 4WD with just a twist of a knob.

## Greatly Enhanced Suspension

Aside from larger shock absorbers that significantly increase ride comfort and stability, the overall suspension of the Hilux has been greatly enhanced to provide improved roll stiffness, off-road traction and wheel articulation.

## All-terrain Tyres [17" all-terrain tyres are for 2.4G, 2X4 & STD variants only]

### Power-adjustable and Retractable Wing Mirrors *[G variants only]*

An aerodynamic design complements the adjustable and retractable wing mirrors.

### Large Cargo Space

The Hilux boasts the longest deck space in its class, which allows ample space for load and luggage. It also has a protective bedliner\* to shield the deck from scratches.

*[\*Double Cab variants only]*

### High Ground Clearance

High ground clearance enables the Hilux to traverse even the most demanding kinds of terrain.

# BEYOND STYLE

### Auto LED Headlamps *[2.8G variant only]*

Advanced LED Projector Headlamps (Low Beam) illuminate the road automatically when it gets dark, and reduce power consumption by up to 60%.

### Follow Me Home Function

The Follow Me Home function illuminates the headlamps for 30 seconds when exiting the vehicle to light up the path to your home.

### LED Daytime Running Lights (DRL) *[2.8G variant only]*

The stylish DRL makes you more visible during the day.

### LED Fog Lamps *[2.8G variant only]*

The new LED Fog Lamps help improve visibility when necessary.

[AT variants only]

The SUV-like interior and 8-way power adjustable driver seat provide an extraordinary level of comfort.

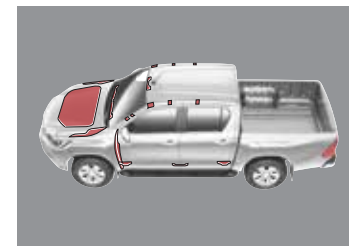

**Auto Air-Conditioner with Rear Vents**  
[2.8G variant only]

**Smart Entry and Start System**  
[G variants only]

**Interior Quietness**

Various insulating materials around the Hilux cabin and engine bay reduce road, wind and engine noise significantly. The engine is also quieter by the improved design of the combustion chamber.

**Digital Video Recorder (DVR)**  
[2.8G variant only]

The Digital Video Recorder is redesigned to allow easy navigation of features and a sleek new look for better driver visibility.

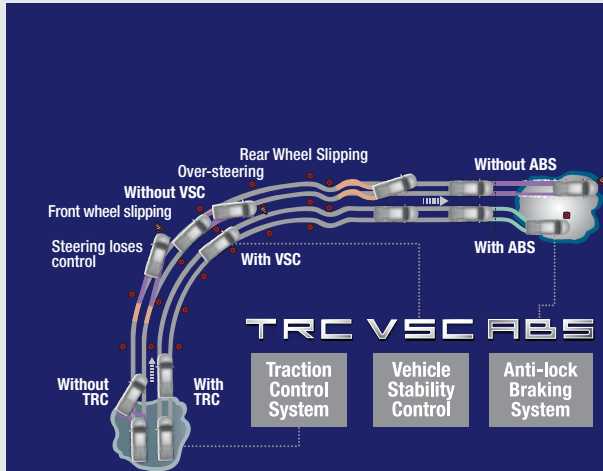

**Cruise Control**  
[2.8G variant only]

Automatically controls and maintains a constant speed for the Hilux.

**7 SRS Airbags**  
[7 for AT variants, 3 for MT variants]

**Traction Control System (TRC) and Vehicle Stability Control (VSC)**  
[G variants only]

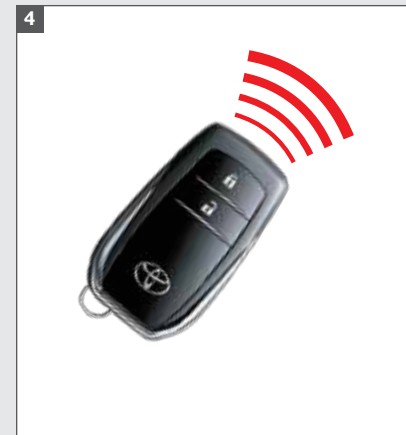

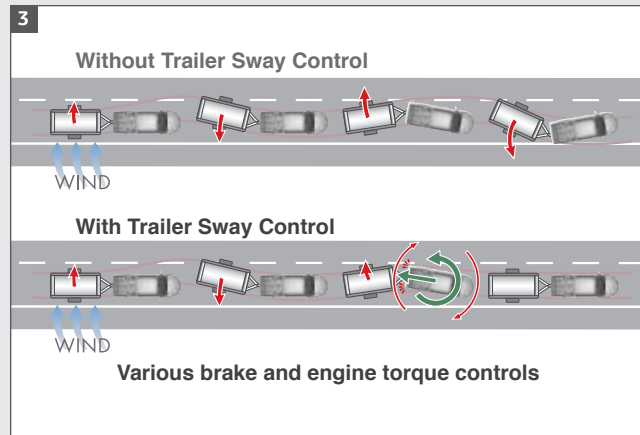

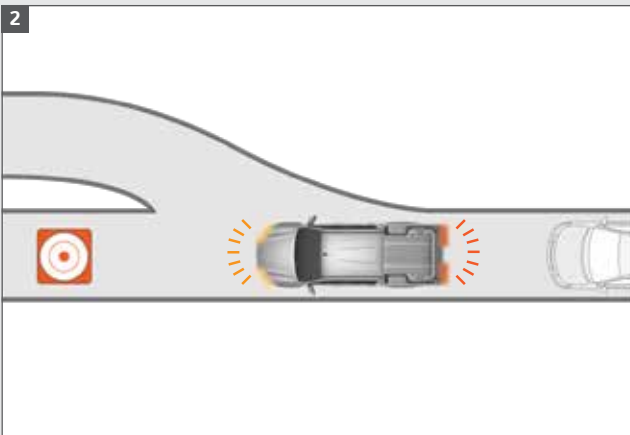

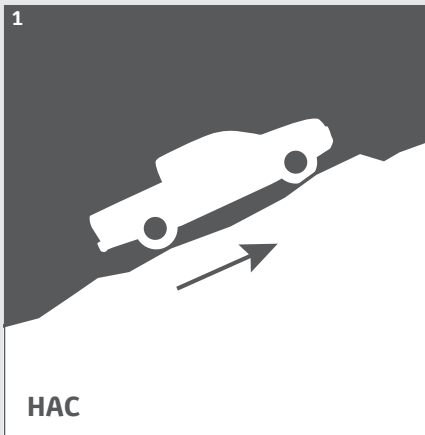

TRC improves traction when moving off/accelerating on slippery surfaces, while VSC prevents the Hilux from spinning when sudden manoeuvres are needed.

**Anti-lock Braking System (ABS) with Electronic Brake Force Distribution (EBD)**

ABS prevents wheel lock-up during braking while EBD optimally distributes braking power to each wheel according to the current load and weight.

**Hilux (G variants)** has been awarded a 5-star rating in the Adult Occupant Protection category.

# BEYOND SAFETY

**1. Hill-start Assist Control (HAC)**  
[G variants only]

Prevents the Hilux from rolling back when moving off up a steep slope, ensuring greater driving safety.

**2. Emergency Stop Signal (ESS) and Brake Assist (BA)**  
[G variants only]

Sudden braking will cause the emergency signals of the Hilux to flash, to warn vehicles behind it, while Brake Assist ensures that maximum braking force is applied when an emergency is detected.

**3. Trailer Sway Control (TSC)**  
[G variants only]

When crosswinds, irregular road surfaces or sudden steering affects a towed trailer, the movement of the trailer is lessened so that it doesn't go out of control.

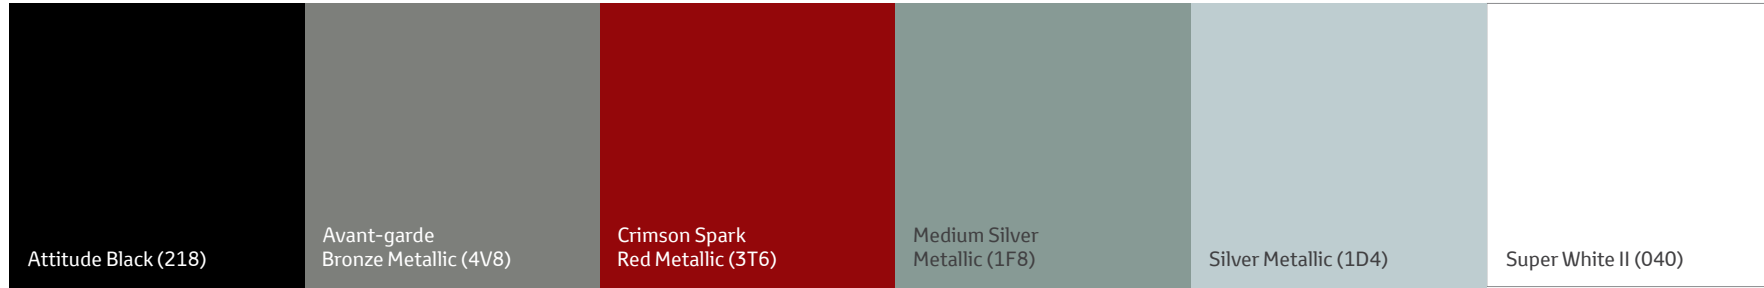

**4. Security System**  
[2.8G, 2.4G & 2x4 variants only]

Comprises a full range of security features such as an immobiliser, siren with back-up battery, an intrusion sensor, double locking and speed auto door lock.
